My journey

Professional experience

Postdoc Researcher

Doñana Biological Station (EBD-CSIC), Department of Conservation Biology and Global Change, Seville (Spain) — January 2025 - present

Specialist in ant species identification

Doñana Biological Station (EBD-CSIC), Department of Conservation Biology and Global Change, Seville (Spain) — May 2024 - Jun 2024

- Identification of ant species from pitfall trap samples from Spain, France, Belgium and the Netherlands, contributing to ecological research and biodiversity assessments through taxonomic expertise.

Education

PhD in Biology

Museum and Institute of Zoology, Warsaw (Poland) — Oct 2019 - Sep 2024

- PhD Thesis: The project aimed to get a better understanding of how reintroductions of parasites work, we performed a multi-level comparison of source and reintroduced populations of Phengaris teleius by studying 1) population genetics, 2) morphology of adult butterflies and 3) behavioural, chemical and acoustical adaptations of butterfly caterpillar to the Myrmica host ants.

Master of Biodiversity and Conservation Biology

Universidad Pablo de Olavide, Sevilla (Spain) — Oct 2017 - Jul 2018

- MSc Thesis (Thesis grade: 9.8/10 - Honors with Distinction): The work aimed to study the effect of temperature over ant assemblages from different habitats, applying different ecological perspectives. Taxonomic and functional diversity were studied, and a new index was developed to study the direct effect of temperature over the interspecific competition.

Degree of Biology

Universitat de València, Valencia (Spain) — Sep 2012 - Sep 2016

- BSc thesis (Thesis grade: 9.5/10): The work aimed to provide new knowledge about the ant communities of Sierra de Javalambre. The main goals were: 1) study how ant species are distributed along the altitudinal gradient, studying variables like ground temperature, nest density and stone density; 2) study the patching effect of Juniperus sabina over ant activity and nesting areas.

Research stays

Prof. Luca Pietro Casacci

University of Turin, Department of Life Sciences and Systems Biology, Turin (Italy) — Oct 2021

- I received training in recording insect vibroacoustic signals, sonogram analysis and performing behavioral assays, which enhanced my skills in experimental design and data interpretation.

Prof. Patrizia d´Ettorre

Sorbonne Paris North University, Laboratory of Experimental and Comparative Ethology, Paris (France) — Jan 2020 - Feb 2020

- I received training in CG-MS analysis of cuticular hydrocarbons and bioinformatics workflows, which deepened my understanding of chemical communication in social insects and enhanced my analytical skills.

Internships

Scientific assistant

Valencian Institute of Agricultural Research (IVIA), Department of Entomology, Valencia (Spain) — Feb 2016 - May 2016

- Internship with the researcher Alejandro Tena working on a biological control applied study about the effect of the presence of the ant Lasius grandis on the behaviour of the parasitoid wasp Anagyrus pseudoccoci on mealybug colonies of Planoccocus citri (pest of citrus).

Environmental manager

Agricultural, Stockbreeding and Environmental public service (Diputación General de Aragón), Teruel (Spain) — Jul 2015 - Sep 2015

- Internship with the environmental manager José Manuel González working on environmental impact reports; monitoring of fish river population dynamic for its management and conservation using electric fishing techniques; monitoring of deer population dynamic for its management and conservation in the Hunting Nacional Reserve “Montes Universales”; management and translocation of native plant species.

Funding

2022 - 2025	PRELUDIUM grant 2021/41/N/NZ8/04360 (NCN, Poland). Bacteria – ant – plant interaction: the effect of ants as bacteria dispersal vectors and indirect drivers of plant health.	*202.001 pln; aprox. 46.000 eur*

Awards

2025	Award for the best oral presentation at the XIX International Congress of the Spanish Society of Ethology and Evolutionary Ecology (Seville, Spain)

Organization of Conferences and Scientific Events

2021	XVI International Conference of Myrmecology, Taxomara 2021	*Organizing Committee and Scientific Committee*
2020	XV International Conference of Myrmecology, Taxomara 2020	*Organizing Committee and Scientific Committee*

Reviews

Manuscripts reviewed for: Applied and Environmental Microbiology (1), Insect Conservation and Diversity (2), Plant-Arthropod Interactions (1), Polish Journal of Ecology (1)

Workshops

2025	Invited to participate in InvaPact III: Analysis of the ecological effects of biological invasions

Courses

2025	Systematic Reviews and Meta-analysis in R
2025	Optimizing the use of R for ecological analyses
2019	Advanced University Course in Ecological Network Analysis
2018	Animal Tracking Course

Memberships

since 2025	SORTEE - Society for Open, Reliable, and Transparent Ecology and Evolutionary Biology
since 2012	Iberian Asociation of Myrmecology (member of the Governing Board)

Skills

Technical skills

Coding Languages	general R packages	Other
R	markdown – ggplot2 – geomorph – vegan	GCMS – morphometrics – network analysis – genetics – ant taxonomy

Languages

Skill	Spanish	English
Reading	Native	B2
Writing	Native	B2
Listening	Native	B2
Speaking	Native	B2

Common European Framework of Reference for Languages: A1/A2: Basic User. B1/B2: Independent User. C1/C2: Proficient User
